

PARKING RULES

1. Each Owner shall keep his/her garage readily available for parking of permitted vehicles and shall not store any goods or materials therein, nor use any portion of the garage for a workshop or other use if such storage or use would prevent said Owner from parking the number of vehicles therein for which said garage was originally designed and constructed. An owner will be granted a thirty (30) day period in which to store moving material within their garage in conjunction with moving into their new property.
2. Storage of vehicles is not permitted on streets. A vehicle will be deemed to be stored when it has not shown "substantial" movement for any 96-hour period. For the purposes of these rules, "substantial" movement involves the removal of the car from the community for at least an eight-hour period and its parking in a different parking space. Vehicles that are deemed to be stored on private streets will be subject to towing at the owner's expense.
3. Fire lane parking is strictly prohibited. Vehicles parked in marked fire lanes or within fifteen feet (15') of a fire hydrant are subject to immediate towing at the owner's expense.
